TEMPORARY AUTONOMOUS ZONE

Thursday - March 4th - 4:00 pm

15th & Market Streets - Philly

Learn how to: fix a bike • play a banjo • make your own tofu • make a really big banner • do basic protest medical • sing wobbly songs • make puppets • HIV prevention • alternative U.S. history • make your own zine • pirate radio stations • sing at the open mic • *and much more! (what will you bring?)*

What is a Temporary Autonomous Zone?

T.A.Z. is a love poem scrawled on the sterilized and unconscious wall of a hospital. It is a 4am Shakespeare reading with your cellmates in Miami. It is a Palestinian youth tearing down a part of the Wall with his bare hands. *It is militantly nonviolent and terroristically creative.* Our T.A.Z. will be a place without rules or regulations, without teachers and students, without bosses and employees. We will manifest our vision of how the world could be a better place, and how human interactions could be based on love and solidarity rather than exploitation and greed.

The temporary autonomous zone will be a safe space for all, please check your stereotypes, police batons, teargas and prejudices at the gates.
