RALLY @ CITY HALL

(15TH & MARKET)

**Books not Bombs! Stop Racist Attacks!**

*The Bush administration is intent on plunging the United States into an illegitimate and pre-emptive war that will only increase danger for Americans, Iraqis and the people of the world. At the same time education, healthcare, and the economy are being neglected. Its time for youth and students to take a stand for our planet and our future! Join with tens of thousands across the country as a part of a national student strike and the national moratorium to stop the war on Iraq!*
